

CPS — Spectral Significance Tests for the ~36-year War Cycle
Fisher's g-test + AR-bootstrap periodogram (COW 1816–2007)

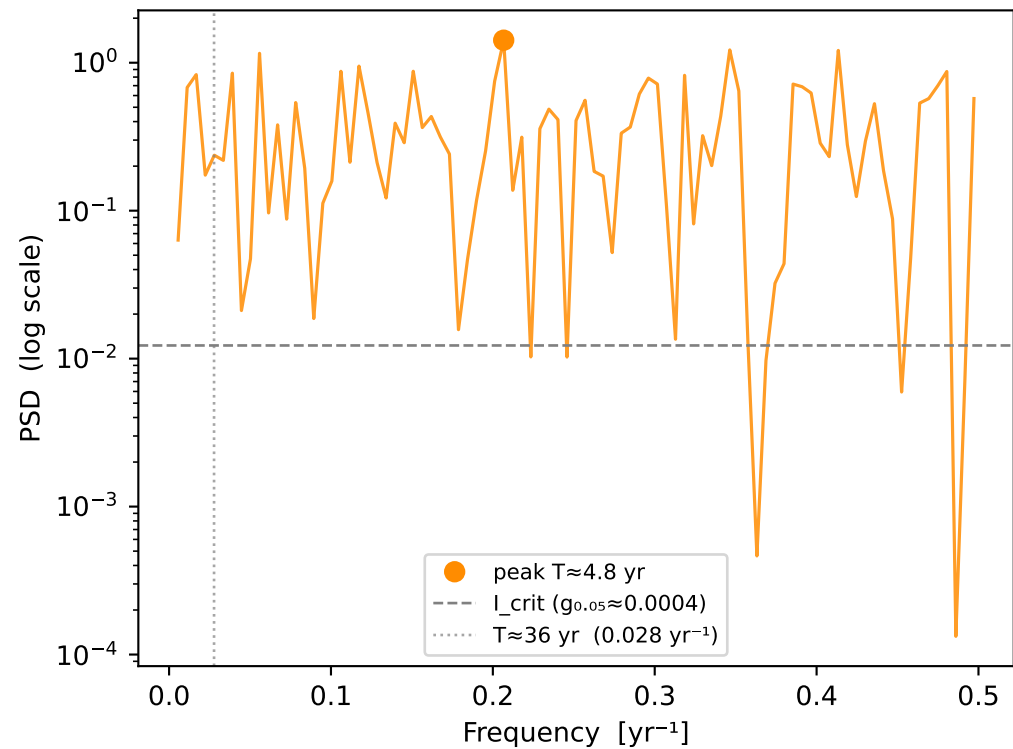

(a) wars (raw) — Fisher g-test
 $g=0.0854$, $p = 0.0214$ * [white-noise null]

(b) wars_smooth — AR(13) bootstrap
Observed peak within 95% CI [B=2000]

(c) wars_smooth AR(13) residuals — Fisher g-test
 $g=0.0435$, $p = 0.8851$ n.s. [after prewhitening]

(d) wars_smooth: bootstrap p-value for g-stat
 $p_{\text{boot}} = 0.9505 \rightarrow$ not significant [AR(13) null]
